GRAVESEND, L. I., May 15 .- A more beautiful day for the running of the Brooklyn Handicap could not have been asked for even if the weather had been made to order. The sun shone warmly clouds. A gentle breeze blew from the West, just strong enough to carry the clouds of dust raised by the hoofs of

stand and into the infield. The "rooters" for muddy going were sadly disappointed, for rain looked to be thousand to one chance. The grounds looked fairer. The vast infield, dotted here and there with dandellone that gleamed like jewels in their emerald setting, gently rolled in waves in re-sponse to the caress of the West wind. The closely cropped lawn was simply a magnificent stretch of green velvet. Supt. Brush had lavished much time and attention on it, and it was in beautiful shape. The stand was a scene of business this morning. Caterer McGrath had a small-sized army at work stocking the bars and lunch counters. Unlimited quarts of wine and sandwiches, salads and cold cuts enough for an army were placed in tempting array to await the onslaught of the thirsty and hungry hordes expected in a few hours.

A regiment of waiters deftly covered the pine tables with snowy linens in the restaurants, and then stood at the rear of the stands discussing the merits of the Handicap candidates in a learned fashion. The closely cropped lawn was simply a

In the ring the mutuel machine memore busily adjusting the electrical apparatus which operates the counters, and in the telegraph office the wires were kept hot with messages containing "tipa," good, bad and indifferent.

The track was in grand shape, it was a trifle dusty and deep, but will be watered before the racing begins.

Most of the Handicap candidates were out this morning. None of them worked, of course. It would be madness for a trainer to give his horse work on the day of a race.

They were given good long gallops enough to limber up their muscles and clear out their pipes.

Don Alonzo, Banquet and Raceland, a formidable trio, worked in company two miles at a good smart pace.

Loantaka worked a mile at a two-minute gait. This almost effectually settles the question of his being a starter. His trainer would hardly send him at such a smart pace.

Ciliford galloped two miles, and many admiring glances were cast on him.

Sir Walter galloped a mile and then breezed through the stretch. He showed in grand form and movad as though he was ready to race for a kingdom.

Al Sheepshead Bay, Dr. Rice, with Tarai up, galloped a mile and then and then and the galloped a mile and then a floor of the was ready to race for a kingdom.

dignity.

There were Pinkerton men by the hundred, and many wondered why the hundred, and many wondered why the Association permitted so many of them to occupy space which might otherwise have been filled at \$2 per head.

The Handicap horses are all in grand shape and it is predicted that a great race will be run.

horses."
Mr. Dwyer says he thinks the attendance 'o-day will equal that of last year, when \$31,300 was taken in at the gate.
"If it is as good as that," said he, "I will be satisfied. There are few compilmentaries out this year. That will help us."

Had to Pay or Get Out.

That the rule about restricting the issue of complimentary badges is to be enforcer was made evident early in the day. All those visitors who were at the track at 10 o'clock were ordered to go outside the gates and then the trouble began.

track at 10 o'clock were ordered to go outside the gates and then the trouble began.

Men who had not paid a penny in ten years to see the races pleaded with the Pinkerton men, and explained that they had such and such a connection with so and so's stable, but the men at the gate were deaf to all entreatles.

There was a lot of swearing and threats of revenge, but it was no use. No one without a compilmentary badge and complimentaries were very scarce, was all wed inside without paying.

How closely the line was drawn can be imagined when Jockey Mike Bergen and Col. Abe Daniels wer compelled to pay for tickets. Bergen showed his lincense from the Jockey Club. He was asked if he was to ride any horse today. He said he was not, but he had a mount to-morrow. He was informed that he would have to pay to see the races to-day, but he would be admitted fre to-morrow. He paid.

Col. Daniels is betting commissioner for Philip J. Dwyer, President of the Brooklyn Jockey Club. He planked down his \$2 without a murmur. In his case, of course, it was simply to set an example to the army of dead heads who made life miserable for Mr. Dwyer with their applications for free admission.

Some enterprising young man is making a fortune to-day selling souvenir satin badges. They are printed in the colors of the favorites in the Handicap and have the names of the horses printed on them. Sir Walter badges seem to be having the best sale.

Arrivat of Tally-Hos.

The first tally-ho arrived at noon with a gay party from New York. The man with the horn had a wonderful lung capacity, and everybody within half a mile of the track must have heard his merry music. Twenty minutes later another tally-ho arrived, but the bugler was sadly out of form, and only a wheezy note or two was heard.

Chance for Record Breaking.

One feature of the attendance to-day is the absence of the society element. Not a box in the club-house end of the grand stand had an occupant at 1.30 o'clock, and there were remarkably few elaborately dressed women. Perhaps the talk of police terference had a deterrent effect on this class of race-scoers, but the Brooklyn track never was patronized as liberally by society as Sheepshead Bay, Morris Park and Monmouth Park.

Dr. Hasbrouck, O'Connell and Wahlim, a trio of great sprinters, breezed in sighth of a mile in better than 13 seconds. Jim McCormack had Lamplighter out, ind the good son of Spendthrift never ooked better. He worked through the tretch with Selena D.

That the betting is expected to be leavy is shown by the number of books hat had weighed in at 10 o'clock.

Nobody seems to think much or care a great deal about the threatened invasion of the De Lacy party. The army of bookies and bookmaker's clerks went about their business of preparing for the fray just as if De Lacy and the Deputy Sheriffs had never been heard of. Every train brought hundreds of men and women, and at 1 o'clock there were between 6.000 and 8.000 persons on the grounds. This was not up to last year's attendance, but he officials of the Club confidently predicted that the record would be beaten.

An unusual number of Western sports were in the crowd. They all fancied Cliff ford, Dr. Rice or Henry of Navarre.

The concerns liabilities are placed at \$445,513, with assets of \$335,008. For many years the Company has done a large business in the manufacture of stoves and furnaces, its factory is in Long Island City. The Company has been peculiarly unofrtunate of late years in the matter of strikes and fires. Owing to strikes the Company had to go outside for its goods and was unable to fill its orders. It is to this that the present difficulty is ascribed. The application for a receivership was made by two-thirds of the stock-holders and is said to be an amicable proceeding for the purpose of bringing about the reorganization of the Company.
